

Environmental, Safety, and Work Health Policy

In our Bocar facilities located in the U.S. we are dedicated to designing and manufacturing aluminum and plastic parts. Our compromise is to protect the environment and provide safety and secure work conditions through:

- Prevent the pollution according to its environmental impacts.
- Eliminate danger and reduce the risk by preventing injuries, health deterioration of the persons, and material harms.
- Promote the participation of the workers and its representatives.
- Establish environmental, safety, and work health objectives.
- Fulfill the legal requirements and other required by the interested parties.
- Continuous improvement of the environmental, safety, and work health management system.
